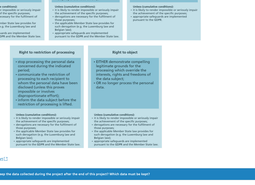
Naomi Bornmann, FAQ – Data protection, EuRaHealt project (NGIPS), Research Centre Informatics and Society (CRIS), University of Narnur, April 2024
https://www.digital-health.eu/FAQ.html

This FAQ complements the RFN report:
Naomi Bornmann, Nicolas Ruffieux, Pierre Dillenbourg, The use of digital biomarkers and machine learning methods in the healthcare sector - GDPR Compliance, (NPI Report, EuRaHealt project (NGIPS), Research Centre Informatics and Society (CRIS), University of Narnur, July 2022
https://www.digital-sustainabilityforum.eu/digital-biomarkers-gdpr-compliance-report/

1. Which digital personal data does the consortium process?

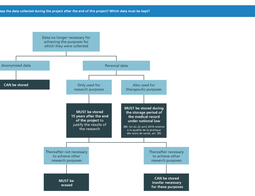
op. 6-9 of the report

2. Who are controller and processors in the project?



op. 10-11 of the report

3. Can the consortium instruct Amazon Web Services (AWS) to store personal data on its behalf, taking into account Schrems case?



op. 33 of the report

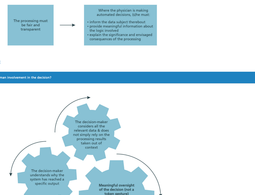
4. On which lawful basis are the processing activities carried out in the project? And after the project if digital biomarkers could be used in medical practice?

op. 21-25 of the report

5. What are the obligations of the consortium when the PD patients exercise their rights?

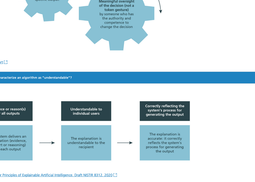
op. 40-46 of the report

6. Is there a duty to keep the data collected during the project after the end of this project? Which data must be kept?



op. 18 of the report

7. What information must IGM and UL (on behalf of the consortium) provide to the PD patients and healthy controls (the data subjects)?

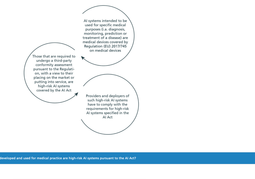


op. 34-40 of the report

8. Which information regarding the automated decision-making must be provided to the data subject?

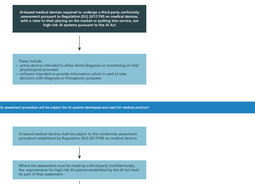
op. 36-37 of the report

9. Why must meaningful information about the logic involved in automated decision-making process where the latter is not based solely on automated processing?



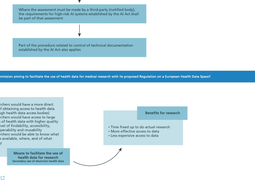
op. 36 of the report

10. How to ensure human involvement in the decision?



op. 26-27 of the report

11. Which elements characterise an algorithm as "understandable"?



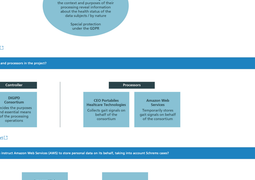
R. I. Phillips et al., Four Principles of Explainable Artificial Intelligence, Draft NISTIR 8312, 2020

12. Will the AI Act apply to AI systems developed and used for medical research?

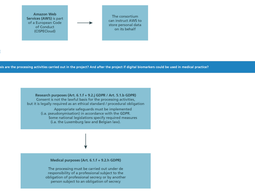
13. Will the AI Act apply to AI systems developed and used for medical practice?

14. Which AI systems developed and used for medical practice are high-risk AI systems pursuant to the AI Act?

15. To which conformity assessment procedure will be subject the AI systems developed and used for medical practice?



16. How is the EU Commission aiming to facilitate the use of health data for medical research with its proposed Regulation on a European Health Data Space?



COM(2022) 196 final

17. How is the EU Commission aiming to facilitate the use of health data for healthcare with its proposed Regulation on a European Health Data Space?

COM(2022) 196 final
