

FORUM des jeunes chercheurs

Jeudi 21 mai 2015

13h30-17h00

Amphi CH01, UNamur

13h30 Welcome

13h40 Mucoadhesive hydroxyethyl-cellulose sponges as lipoplexes delivery system for vaginal application

Tania FURST (CIRM, Laboratoire de Technologie Pharmaceutique)

14h00 Transfer of chemoresistance between cancer cells via extracellular vesicles

Céline BOUVY (NAMEDIC - NTHC, Department of Pharmacy)

14h20 Identification of antiplasmodial compounds isolated from endemic plants of Reunion Island,

Allison LEDOUX (CIRM, Laboratoire de Pharmacognosie)

14h40 Towards the total synthesis of momilactone A

Vincent PIRENNE (NAMEDIC, Laboratoire de Chimie Organique de Synthèse)

15h00 Pause

15h30 Analysis of film casting by raman confocal microscopy: an innovative approach in the framework of drug content and api solid-state determination

Lauranne NETCHACOVITCH (CIRM, Laboratoire de Chimie Analytique)

15h50 Targeting DNA methylation for epigenetic therapy in cancer

Grégoire RONDELET (NAMEDIC, Unit of Theoretical and Structural Physico-Chemistry)

16h20 Visualisation of glutamate neurotransmission with PET-probes targeting AMPA subtype receptors

François DEVERDENNE (CIRM, Laboratoire de Chimie Pharmaceutique)

16h40 Multiscale study of the flexibility properties of the μ opioid receptor

Mathieu FOSSÉPRÉ (NAMEDIC, Unit of Theoretical and Structural Physico-Chemistry)

17h00 Drink

Inscription gratuite mais obligatoire via le lien <http://doodle.com/hmu2e5c7ni647n29> avant le 10 mai.
